

Spanish Trail Veterinary Hospital

We love our new sign! It has turned out to be a great investment for new growth. Our clinic is a mature hospital in an established area of town with minimal new housing. Within a two-mile radius there are 7 other veterinary clinics and we are bordered by Escambia Bay to the east. In the two months following installation; our number of new clients per month was up 500% compared to the same two months the prior year. We will have just about paid for the sign in 7 months if the 10% increase in revenue we have seen continues through the end of the year.

Designing and getting our sign produced was remarkably easy thanks to Will Meade. He worked with us to design a sign that fits our clinic's needs. Will even got quotes from local companies to install our sign. Once we picked a company he arranged everything else. Thank You Will Meade and Robson Sign Corporation.

Your happy client,

A handwritten signature in blue ink that reads "Eric Lovell".

Eric Lovell, DVM
